"They've become very attuned to our business in how we have to be served and what we need."

Dan Wolf, President
Wolf Farms

"Shipley is proactively engaging with me on market conditions and options out there in the market so that we can make intelligent decisions."

Kevin Wood, Purchasing Manager
Specialty Industries

More than a Commodity

By combining products and services you can rely on with personal relationships and expert advice, Shipley creates a modern energy partnership that powers business growth.

Create Consistency

Improve reliability and peace-of-mind so you can focus on your business.

- We look after every aspect of your account finding ways to save you time and money.
- Automatic refills mean you don't ever have to worry about running out.
- Having your own account manager and direct line access means you're never left waiting for advice, support, or answers.
- We own our own trucks and offer 24-hour emergency filling and next business day service options.

Control Costs

Receive personalized advice and support that helps control costs and create predictable outcomes.

- We'll help you explore pros and cons of each strategy, creating a custom energy plan that helps you achieve your goals.
- Budget payment options can help smooth costs and predictable billing.
- Proactive account outreach helps you eliminate surprises and make better decisions.
- Have questions about the market or your usage? You have a direct line to your account manager.

Improve Efficiency

Leverage a seamless vendor relationship that boosts efficiency and drive growths.

- Having one vendor for all your energy needs makes energy procurement easier than ever.
- Improve data-driven decision making with accurate and detailed usage reporting.
- Reduce complexity and streamline processing.
- Paperless statements and history make reporting a snap.

More Options

Propane

Our custom energy plans can provide your propane-powered business with year-round savings, improved predictability, and simplified operations.

Onsite Fueling

From fleet fueling to heating oil and anything else onsite, we'll build your business a smart, money-saving strategy that saves time and delivers peace-of-mind.

Electricity

Whether you are looking for someone to guide you through the complexities of commercial electricity or just looking for a great rate. We can help.

Natural Gas

When you run a business, even slight fluctuations in the price of natural gas can have an impact on your bottom line. We work to maximize value and minimize risk to keep your business firing on all cylinders.

Procurement

Our advisors can assist you with all phases of energy procurement including wholesale purchases.

HVAC

No matter which energy your business uses, our highly trained and trustworthy technicians help make sure you stay up and running.

Ready to work with an energy partner who can help your business create consistency, control costs, and improve efficiency? **Contact us today.**
